

MESHE — WEBSITE CORRECTIONS & CONTENT UPDATE

Final content and layout instructions for the website developer

1. HERO SECTION — REPLACE THE CURRENT COPY

Top badge: 5 Healing Shades • Matte Finish

Main line: Five iconic shades. One signature smile.

Colours inspired by real emotions, real stories, and the beautiful journey of finding yourself again.

Important: Please remove the current wording around “ultra-weightless velvet formulation” and replace it with the above healing-focused copy.

2. WHY MESHE? — REPLACE THE CURRENT SECTION

WHY MESHE?

MESHE was created with a simple belief — beauty can be a part of healing.

We all go through moments that change us. Sometimes it's heartbreak, sometimes a missed opportunity, a failed dream, losing someone, family struggles, or simply life not turning out the way we imagined.

Everyone has a story. Everyone has a healing phase.

MESHE is here to celebrate that journey — the process of accepting, growing, finding yourself again, and slowly learning to smile again. ☐

01 — Your Beauty, Your Way

HEALING STARTS WITH YOU

When something changes your life, you sometimes lose a little connection with yourself too. MESHE is about finding that connection again.

Wear what makes you feel like you. Express yourself without expectations, without comparison, and without having to fit into anyone else's idea of beauty.

02 — A Shade for Every Mood

EVERY FEELING HAS A STORY

Our five shades aren't just colours. Each one represents a different feeling, memory, or stage of the healing journey.

From the emotions you struggle to let go of to the moment you finally choose yourself again—there's a little story behind every shade.

03 — Comfort With Care

BEAUTY THAT CARES FOR YOU

Healing is about taking care of yourself, too.

Our formula is enriched with Shea Butter, Jojoba Oil & Vitamin E, bringing colour and care together for lips that feel soft, comfortable and nourished. Because beauty shouldn't just make you look good—it should feel good, too.

04 — Your Healing Phase

FOR THE DAYS YOU'RE FINDING YOURSELF AGAIN

MESHE is for the messy days, the growing days, the “I'm figuring it out” days and the days when you finally feel like yourself again.

A little colour. A little confidence. A little reminder: You are allowed to heal at your own pace. ☐

05 — Two Girls. One Dream.

A BRAND BORN FROM A STORY

MESHE started with two young girls who had a dream of creating something of their own.

What started as an idea became a journey of learning, creating, making mistakes, starting again and believing in ourselves. And that's why MESHE means more to us than just cosmetics. It's our story of becoming—and we want you to see a little piece of your story in it, too. ☐

FINAL LINE

For every girl who is healing, growing, changing and becoming herself again.

MESHE — Made for Every Smile. ☐

3. SHADE STORY SECTION — PLACE THIS CONTENT ABOVE/BEFORE THE SHADE DETAILS

Please use the following as the complete healing-story copy for the five shades. Keep the order exactly as shown.

♥ LOST LOVE — The Beginning

For the love you once had, but had to let go of.

There are some people and moments we wish we could hold onto forever. Lost Love represents that first stage—the memories, the attachment, and the difficult acceptance that some things are meant to become a part of our past.

Some endings hurt because they once meant everything.

☐ BROKEN BEAUTY — What Remains

Because something breaking you doesn't mean it has to define you.

Sometimes life doesn't leave us the way it found us. We change, we hurt, and we carry pieces of what happened with us. But somewhere in that brokenness, we discover a stronger version of ourselves.

You can be broken and still become beautiful again.

☐ PINK LIES — The Truth We Learn

For the things we believed, the promises that weren't true, and the lessons they left behind.

We don't always get the truth when we need it. Sometimes we believe words, trust people, and build hopes around things that don't turn out the way we imagined. Pink Lies represents the moment we stop blaming ourselves and start learning from what happened.

Not every lie destroys you. Some teach you what you deserve.

□ **AFTER LOVE — Choosing Yourself**

For the life that begins after letting go.

Healing slowly changes the way you see yourself. You start doing things for you again, finding your happiness in little moments and realizing that your life doesn't end where something else ended.

After love comes you. And sometimes, choosing yourself is the beginning of everything.

□ **NEVERMINE — Moving Forward**

"It happened. I learned from it. And now, I'm moving on."

This is the stage where the past doesn't have the same hold on you anymore. You remember, but it doesn't hurt the same. You understand that what happened was a chapter—not your entire story.

You don't have to forget what happened to move forward from it.

And together...

Lost Love → Broken Beauty → Pink Lies → After Love → Nevermine

It's not just a collection of lipstick shades. It's a journey from losing something, to understanding it, healing through it, finding yourself again, and finally learning to smile.

4. MESHE BRAND STORY / ABOUT SECTION — REPLACE THE CURRENT LONG TEXT

Please replace the existing “MESHE was created around a simple idea...” section with this complete text. The full paragraph should be visible and readable on mobile.

MESHE was created around a simple idea — that beauty can be a small part of healing.

We believe beauty is not about hiding what you’ve been through or becoming someone else; it’s about feeling comfortable enough to be yourself again. MESHE was created for those little moments when you’re finding your way back to yourself—when you’re learning to let go, growing through what happened, rebuilding your confidence, and slowly discovering your smile again. Our shades are designed to feel personal, effortless and expressive, giving you a little colour to match every mood and every version of you. From the days you feel a little lost to the days you feel ready to start again, MESHE is here to remind you that healing doesn’t have to look perfect—it can be soft, messy, colourful and completely your own. Because sometimes, something as simple as putting on your favourite shade can become a moment of choosing yourself. ☐

5. SHADE / PRODUCT IMAGES — IMPORTANT MOBILE FIX

The product/shade images shown in the current website are getting cropped or cut off on mobile. In the screenshots, the images appear only half-visible when the page is opened on a phone.

Required correction:

- Show the complete product image without cutting the top, bottom, left or right side.
- Maintain the original aspect ratio of every product/shade image.
- Do not use a fixed-height container that crops the image.
- On mobile, the complete lipstick/product should remain visible and properly centered.
- Please check all 5 shade/product images individually on a real mobile screen after the fix.

6. MOBILE LAYOUT / CONTENT CHECK

Please do a final mobile-responsive check after making the above changes:

- No text should be cut off or hidden behind the sticky “ORDER NOW” bar.
- Long paragraphs should remain fully readable with comfortable spacing.
- Headings should wrap naturally without awkward clipping.
- Product cards and images should fit within the mobile screen width.
- The healing theme should remain consistent throughout the website.
- Please ensure the updated copy is used instead of the old generic/luxury-formulation copy.

FINAL REQUEST TO DEVELOPER

Please update the website according to the content and corrections above. The main priority is to shift the website communication toward MESHE’s healing concept, use the exact shade stories provided, replace the current brand-story copy, and fix the mobile image cropping so that every product image is displayed completely.

7. HERO SECTION — REMOVE “ICONIC SIGNATURE” ELEMENT

- Replace it with a healing-focused element that reflects MESHE’s core concept and emotional journey.
- **Suggested replacement:** “Your Healing Phase” or “A Little Colour for Your Healing Journey”.
- The visual treatment should feel soft, comforting, emotional and personal—not like a luxury/signature branding element.

8. HERO MAIN LINE — UPDATE

Replace “**Five iconic shades. One signature smile.**” with “**Five shades. One healing journey.**” to connect the opening message with the five-shade healing story.
